

Silkolene®

Classic Technical Data

Donington 40

Donington 40 is a 'straight' non additive type monograde engine oil of the type commonly used by the original makers of vintage and veteran vehicles.

Donington 40 is recommended for use in total loss lubrication systems fitted to these very old machines where the engines operate under low to moderate speeds, loads and temperatures. In these conditions, Donington 40 will provide effective lubrication to minimise wear and effective gas sealing of combustion zone.

Typical Technical Data	Donington 40
Kinematic Viscosity @ 100°C...cSt	14.9
Kinematic Viscosity @ 40°C...cSt	155
Viscosity Index	95
Pour Point °C	-26
Specific Gravity @20°C	0.888
Flash Point (Closed) °C	230
